Itinerary

(Variable according to nautical conditions)

(Daily navigation: max 30 nautical miles – 5 hours)

DAY 1 (Saturday)	<ul style="list-style-type: none">• Check-in Milazzo Marina <p>Welcoming, briefing and navigation to Vulcano. This island was formed by the merging of several volcanos; their activity has not completely ceased and frequently create jets of steam in different places on the island. Vulcano is also known for its sulphurous muds with therapeutic properties. Possibly, night will be spent at anchor.</p>
DAY 2 (Sunday)	<ul style="list-style-type: none">• Daily Experience <p>Navigation and excursion to Lipari, which being the largest of the Aeolian Islands has several towns. Its territory is mountainous and has a jagged coastline: there are many steep cliffs but also some flat beaches. The most peculiar one is Spiaggia Bianca (White Beach), whose name is due to the pumice stone of which it is made.</p>
DAY 3 (Monday)	<ul style="list-style-type: none">• Daily Experience <p>Navigation to Panarea and Stromboli and scenic tour of the islands. The first is the smallest of the Aeolian islands and is known for its hydrothermal vent. Stromboli has one of the most active volcanos in Europe; the black beaches are its distinctive trait. Return to Salina: nice navigation with (usual) thermal wind for about 22 nautical miles and mooring at the marina.</p>
